HEIGHT	YOU WEAR
5'7" and Shorter	Short
5'8" to 5'11"	Regular
6'0" to 6'4"	Long (Tall)
6'5" and Taller	X-Long (X-Tall)

How To Determine Your Blazer Size

- CHEST:** While standing erect, but relaxed, measure around the largest part of the chest or bust with the tape passing under the arms. Be sure that the tape remains parallel to the floor, and snug.*
- MIDSECTION:** While standing relaxed, measure between your ribs and belly button. This should be the largest part of your midsection. Be sure to pull the tape snug.*

**Snug means the tape is tight but still loose enough to easily slide your hand under the tape.*

How To Determine Your Trouser Size

Getting a good fitting pair of men's trousers starts with a good set of measurements.

Most men do not wear their pants at the true waist. Please measure your waist where you wear your trousers.

To get a good hip (seat) measurement, make sure to measure across the fullest part of the hip (seat). Most men will have a seat measurement 7 to 8 inches larger than the waist.

- 1. WAIST:** While standing relaxed, measure around your waist where the trousers are worn; generally this is the smallest part of the waist. Be sure to pull the tape snug.*
- 2. HIPS:** While standing relaxed with your feet together, measure around the fullest part of your hips (seat); be sure to keep the tape parallel to the floor and snug.* Remove wallets and mobile phones from your pockets prior to taking this measurement.
- 3. INSEAM:** Measure the inside seam from the crotch to the bottom of the trouser leg. A good technique is to measure a pair of well-fitting trousers while on a flat surface. *This measurement will be helpful when taking your trousers to be altered. **All KOC Pants come unhemmed.*

**Snug means the tape is tight but still loose enough to easily slide your hand under the tape.*
